INDEPENDENT AUDITOR'S REPORT ON REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS

To the shareholders
National Metal Manufacturing and Casting Company ("MAADANIYAH")
(A Saudi joint stock company)
Jubail Industrial City - Kingdom of Saudi Arabia.

Introduction

We have reviewed the accompanying condensed interim financial statements of National Metal Manufacturing and Casting Company ("MAADANIYAH") (a Saudi joint stock company) ("the Company") which comprises of condensed interim statement of financial position as of September 30, 2021, the related condensed interim statement of profit or loss and other comprehensive income for the three months and nine months periods ended September 30, 2021, the related condensed interim statements of changes in equity and cash flows for the nine months period then ended and summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with International Accounting Standard 34 (IAS 34) - "Interim Financial Reporting" endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with IAS 34 endorsed in the Kingdom of Saudi Arabia.

Other statutory and regulatory matter

As of September 30, 2021, the accumulated losses of the Company exceeded 20% of its share capital. In accordance with the instructions of the Capital Market Authority for companies listed on the Saudi Stock Exchange, the Company is required to announce this fact to the public along-with the amount of total accumulated losses, its percentage of the capital and the main reasons that caused the losses. As disclosed in note 1 to these condensed interim financial statements, the Company is in process of getting necessary approvals to set-off accumulated losses against share capital and an increase in share capital by way of right issue.

All of the Company's operations are located in the Kingdom of Saudi Arabia.

12. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Underlying the definition of fair value is the presumption that the Company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

When measuring the fair value, the Company uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the measurement date.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of September 30, 2021 and December 31, 2020, the carrying values of the financial assets and financial liabilities of the Company approximate to their fair values. Regarding equity investment at FVOCI, the management believes that cost is the best estimates of its fair value as the investee company is in formation stages as of September 30, 2021. The management also believes that the fair value of investment property is not materially different with that disclosed in annual financial statements of the Company for the year ended December 31, 2020.
