INDEPENDENT AUDITOR'S REVIEW REPORT ON THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1/1)

TO THE SHAREHOLDERS OF NATIONAL METAL MANUFACTURING AND CASTING COMPANY (MAADANIYAH)
(A SAUDI JOINT STOCK COMPANY)

INTRODUCTION

We have reviewed the accompanying interim consolidated statement of financial position of National Metal Manufacturing and Casting Company ("MAADANIYAH") (the "Company"), A Saudi Joint Stock Company, and its subsidiaries (collectively referred to as the "Group") as at September 30, 2023 and the related interim consolidated statement of profit or loss and other comprehensive income for the three-month and nine-month periods then ended, and the interim consolidated statements of changes in equity and cash flows for the nine-month period then ended, and a summary of significant accounting policies and other explanatory notes (the "interim condensed consolidated financial statements"). Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard No. 34 - "Interim Financial Reporting" ("IAS 34") that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagement 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", that is endorsed in the Kingdom of Saudi Arabia. A review of interim condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

For Al-Bassam & Co

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

IFRS S1	General Requirements for Disclosure of Sustainability- related Financial Information	January 1, 2024	IFRS S1 is new standard requiring an entity to prepare and report sustainability-related financial disclosures in accordance with IFRS Sustainability Disclosure Standards. An entity may apply IFRS Sustainability Disclosure Standards irrespective of whether the entity's related general-purpose financial statements are prepared in accordance with IFRS Accounting Standards
IFRS S2	Climate-related disclosures	January 1, 2024	The objective of IFRS S2 is to require an entity to disclose information about its climate-related risks and opportunities that is useful to primary users of general-purpose financial reports in making decisions relating to providing resources to the entity. These are climate-related risks and opportunities that could reasonably be expected to affect the entity's cash flows, its access to finance or cost of capital over the short, medium or long term.
IAS 1	Classification of liabilities as current or non-current	January 1, 2024	The amendment has clarified what is meant by a right to defer settlement, that a right to defer must exist at the end of the reporting period, that classification is unaffected by the likelihood that an entity will exercise its deferral right, and that only if an embedded derivative in a convertible liability is itself an equity instrument the terms of liability would not impact its classification.
IFRS 16	Leases on sale and leaseback	January 1, 2024	These amendments include requirements for sale and leaseback transactions in IFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.
IFRS 7 and 17	Supplier finance arrangement	January 1, 2024	These amendments require to add disclosure requirements to enhance transparency of supplier finance arrangements, and 'signposts' within existing disclosure requirements, that ask entities to provide qualitative and quantitative information about supplier finance arrangements.
IAS 28	Amendments to IFRS 10 and IAS 28	Deferred indefinitely	The amendments to IFRS 10 and IAS 28 deal with situations where there is a sale or contribution of assets between an investor and its associate or joint venture. Specifically, the amendments state that gains or losses result from the loss of control of a subsidiary.
IAS 21	Lack of Exchangeability	January 1, 2025	The amendments contain guidance to specify when a currency is exchangeable and how to determine the exchange rate when it is not.

Management anticipates that these new interpretations and amendments will be adopted in the Group's interim condensed consolidated financial statements as and when they are applicable and adoption of these interpretations and amendments are expected to have no material impact on the interim condensed consolidated financial statements of the Group in the period of initial application.
